

ConforMIS Secure Electronic Image Transport Access Form

Dear Imaging Partner,

For image study transmissions to ConforMIS we will be utilizing the AG Mednet Imaging Network - a global, HIPAA Compliant, highly secure, and simple to use electronic image transport network with whom we partner. This system will enable a fully audited electronic delivery of your image studies to our systems to significantly speed the image QA and read time to ultimately ensure faster delivery of your patient's implant.

In order to begin utilizing the image transport network, you will be receiving start-up instructions which will enable you to electronically send studies from a CD/DVD or DICOM device directly to ConforMIS. Simple install and operation instructions and your unique username / password will be delivered in an email from AG Mednet.

The AG Mednet system utilizes a web-based desktop agent to enable sites to send studies to ConforMIS. The set-up and configuration process will take about 10 minutes. The application only requires user access on the computer.

First, confirm that your computer meets the minimum requirements below. (This information can typically be found by selecting the System icon from the Control Panel or by right-clicking your Operating System Drive (C:) to view Properties) Yes No.

Platform	Version	Memory	Browsers
WINDOWS IA32-bit	Windows XP Professional (SP1)	64mb	Mozilla 1.4+ or 1.7+
	Windows XP Home	64mb	Internet Explorer 6.0 SP1+ or 7.0
	Windows 2000 Professional (SP3+)	64mb	Firefox 1.06+
	Windows Vista	128mb	
WINDOWS 64-bit	Windows XP	128mb	Internet Explorer 6.0 SP1+ or 7.0
	Windows Vista	128mb	Mozilla 1.4.X or 1.7+ Firefox 1.06 + 64bit OS Netscape 7.X
Macintosh - Intel DC	OS X 10.5+	128mb	Firefox 1.06+ Safari 3.0+

Also, please note that the computer utilizing the application must have:

- LAN access to DICOM devices if sending directly from a modality, PACS, or Workstation (not required for sending from a CD / DVD)
- Java Version 6 (can be downloaded at the time the application is set-up)

Should you have any questions or issues during the installation, please contact AG Mednet at **1-888-9-AGMEDNET (1-888-924-6336)**.

To aid in a seamless installation process, please fill in the following information:

Site Name: _____ Contact Name: _____

Phone number: _____ Email: _____
